Journal of Fluid Mechanics

Index to Volumes 201–300

(April 1989 – October 1995)

CAMBRIDGE UNIVERSITY PRESS

THE PITT BUILDING, TRUMPINGTON STREET, CAMBRIDGE CB2 1RP
40 WEST 20TH STREET, NEW YORK, NY 10011–4211, USA
10 STAMFORD ROAD, OAKLEIGH, MELBOURNE 3166, AUSTRALIA

The JOURNAL OF FLUID MECHANICS exists for the publication of theoretical and experimental investigations of all aspects of the mechanics of fluids.

EDITOR **Prof. G. K. Batchelor**
Department of Applied Mathematics and Theoretical Physics, University of Cambridge, Silver Street, Cambridge CB3 9EW, UK. *FAX* (0)1223 337918;
e-mail karen@damtp.cam.ac.uk

ASSOCIATE EDITORS

Prof. J. F. Brady, Department of Chemical Engineering 210-41, California Institute of Technology, Pasadena, CA 91125, USA. *FAX* 818 568 8743; *e-mail* jfbrady@caltech.edu

JOURNAL OF FLUID MECHANICS

INDEX OF AUTHORS OF PAPERS

&

INDEX OF BOOKS REVIEWED

IN VOLUMES 201 to 300

April 1989–October 1995

CAMBRIDGE
UNIVERSITY PRESS

SUBSCRIPTIONS

The *Journal of Fluid Mechanics* (ISSN 0022-1120) is published *semimonthly* in 24 volumes each year. The subscription price (excluding VAT, but including postage) to volumes 282–305, 1995, is £696 (US $1265 in the USA, Canada and Mexico) for institutions; £359 (US $628) for individuals. Single volumes cost £32 (US $58 in the USA, Canada and Mexico) plus postage. Orders, which must be accompanied by payment, should be sent to any bookseller or subscription agent, or direct to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU. Subscriptions in the USA, Canada and Mexico should be sent to Cambridge University Press, Journals Department, 40 West 20th Street, New York, NY 10011–4211. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions (including ASP delivery) are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Copies of the *Journal* for subscribers in the USA, Canada and Mexico are sent by air to New York. Second class postage is paid at New York, NY, and at additional mailing offices. POSTMASTER: send address changes in USA, Canada and Mexico to *Journal of Fluid Mechanics*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573–4930. Claims for missing issues can only be considered if made immediately upon receipt of the subsequent issue. Copies of back numbers are available from Cambridge University Press.

COPYING

The *Journal* is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA which are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of $11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0022-1120/95/$11.00+ .10

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA is authorized to supply single copies of separate articles for private use only.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

For all other use of material from the *Journal* permission should be sought from Cambridge or the American Branch of Cambridge University Press.

NOTES FOR AUTHORS

Authors wishing to have papers published in the *Journal* should send them to any editor, choosing one in their own or a neighbouring country where possible. The submission of three copies will expedite assessment, although it may not be possible to return all these copies. Original drawings should not be sent until the paper is accepted. The initial submission will be acknowledged by postcard but not subsequent communications. Submission of a paper implies a declaration by the author that the work is not being considered for publication elsewhere and that it has not already been considered by a different editor of the *Journal*. Reports on conferences must be submitted within three months of the meeting.

Authors are urged to write their papers clearly and attractively, so that their work will be readily accessible to readers. Manuscripts should be typed in double spacing on one side of the paper only, with references listed at the end in alphabetical order of authors. Drawings should be in black Indian ink or from a high-quality laser printer, and should not be larger than 30 cm by 45 cm. Lettering to be inserted by the printer should be shown clearly on copies of the figures, rather than on the original drawings. A typed list of captions should be provided at the end of the manuscript. Extensive detailed mathematical relations, tables or figures likely to be useful only to a few specialists may be held in the editorial files, with copies being made available to readers on request.

There is no charge for publication, although the cost of any colour figures (£500 per page) must be borne by authors. An author is entitled to 50 offprints of his paper free of charge, and additional offprints can be purchased if ordered when proofs are returned.

ELECTRONIC SUBMISSION OF PAPERS (IN FINALLY ACCEPTED FORM ONLY)

Papers accepted for publication in the *Journal* can now be printed directly from author-prepared disks based on LaTeX software. A specially designed JFM style macro must be used, and this file (JFM.sty), together with a guide to its use (JFMguide.tex), some sample pages (JFMsampl.tex) and a guide to editorial style and notation (JFMnot.tex) are available as follows:

- Via anonymous ftp from the Cambridge University Press (ftp.cup.cam.ac.uk in the directory pub/texarchive/journals/latex/jfm.all).
- On a PC 3.5 in. or Apple Mac disk from the JFM Editorial Office, Dept of Applied Mathematics and Theoretical Physics, Silver Street, Cambridge CB3 9EW, UK.

These files will be updated regularly: please make sure you have the latest version.

When the paper has been accepted for publication (and only then) authors should send the final version on a PC 3.5 in. or Apple Mac disk (not via e-mail) to the Editor or Associate Editor handling the paper, together with an *identical* hard copy and the originals of the figures.

Note that submissions on disks must be suitably prepared, using the JFM LaTeX style file and adhering closely to JFM editorial requirements for notation, English, general style and presentation. Any editorial changes will be made by the printer and if these are numerous it may be more efficient to typeset the paper conventionally from the hard copy.

INDEX OF AUTHORS OF PAPERS

For the purpose of determining place in the alphabetical order, a name is regarded as beginning with the first capital letter of the main or family name. Subsequent spaces, hyphens or apostrophes in the main name are disregarded. Names prefixed by Mc are ordered as if the prefix were Mac.

Abarbanel, S. S., Don, W. S., Gottlieb, D., Rudy, D. H. & Townsend, J. C.
Secondary frequencies in the wake of a circular cylinder with vortex shedding, **225**, 1991, 557–574
